

INTERO SOURCING

Honesty Will Bring Success

Excellence Knit, Woven & Sweater Manufacturer

COMPANY PROFILE

ABOUT US

InteroSourcing Limited is a ready-made Garments Buying House & exporter from Bangladesh. InteroSourcing Limited is dexterous to export within very short interlude after the achievement of production because we have very good sourcing in import & local fabrics & trims. Experienced professionals to ensure quality manufacturing, style accuracy, as committed delivery and competitive pricing, operate InteroSourcing Limited. Our target is to be the market leader. We have separate Merchandiser for Woven, Knit and Sweater.

We are able to produce all kinds of Woven, Knit and Sweater items like Tops, T-shirts, Polo Shirts, Sweatshirts, Shirts, Trousers, Shorts, Skirts, Apron's, all kind of Jackets, Towels etc... including denims. We are also able to do small quantity like 1 thousand pieces per color and 3 thousand pieces in a Purchase Order.

We have strong commitment to quality and our major target is to satisfy the clients like you with quality and on time delivery. We can offer enhanced service than others for pricing, quality goods as per buyer's requirements and also on time shipment.

We have always kept quality controller in one factory for whole day for the follow up of the production and QC In-charge visit every factory every day. Concern Merchandiser visit factory during production to avoid any type of mistake. Also our Managing Director be join with QC team during the final inspection.

Sustainability & Innovation

We actively promote and participate in efforts to improve sustainability. It is NOT just fashion that is simply made from sustainable materials. The responsibility goes further than this, and spans across the entire value chain.

Better Cotton Initiative (BCI), making global cotton production better for the people who produce it, better for the environment it grows in, and better for the sector's future.

Oeko-Tex standards, certifying products are free of harmful chemicals and are safe for human use.

Global Organic Textile Standard (GOTS), processing standard for organic fibers, including ecological and social criteria, backed up by independent certification of the entire textile supply chain.

Global Recycled Standard (GRS), intended for companies making and selling products with recycled content. This standard applies to the full supply chain and addresses traceability, environmental principles, social requirements, and labeling.

We are proud of the product
and the process behind it.

We believe in transparency and direct channels in a business that is fast-paced and challenging.

Quality

Control + Assurance

Intero Sourcing Limited puts a lot of emphasis on quality products and quality management. Therefore, the planned and systematic activities are implemented in a quality system so that quality requirements for the garments are fulfilled. Our Quality Assurance also includes management of the quality of raw materials, fabric and color composition, products and components, services related to production, and management, production and inspection processes.

Tested quality control processes along with inspections at regular intervals allow us to deliver orders on time and within the required quality standard (AQL 1.0 – 4.0).

We enforce standards from the start – fabric, trims, processing (printing + dyeing), lab testing (physical + chemical), patterns & fitting, washing, finishing, packing, in-line (10% packed), mid-line (50% packed), final (100% packed).

Our team includes specialized controllers for each different and specific product category. Our controller's base experience comes from having manufactured the products by themselves and knowing everything there is to know about them.

Honesty Will Bring Success

3D

Design Studio

The goal is to help designers from the limitations of physical prototyping while addressing the industry's priorities of saving time, reducing costs, and eliminating waste.

3D allows designers and pattern makers to make more accurate designs in less time. Showcasing with digital samples enables instant feedback and rapid decision-making because anyone anywhere can take part in garment editing and pricing discussions.

A true-to-life 3D sample increases the reliability of the decision. Using a digitally accurate 3D sample makes it easy to validate and finalize the design process across the organization

Attending International fairs like PV, Texworld, Kingping Magic, UMO, PTI & etc.
